HIS HEART TO BAZ ABOUT THE
STRANGE THINGS THAT GO
ON IN HIS BACK ROOM

'It's been really fantastic since these young creative types have begun to flood into my back room. I think we had 70 of them in their once, although the room can hold 400 easily - polish that is. I've been really impressed with the quality of some of the things that have gone on in there to be honest. The Self Service Pub Conversations were a real treat; I particularly enjoyed Mark E Gubbs's presentation. It really was great stuff. Very very interesting indeed. Personally I'm more into French Impressionism myself, I do like a good Cezanne. But, you know, it has been a real eye opener for me finding out about this contemporary art lark. I'm almost tempted to give it a go myself! I'll raise a glass to that. Here's to contemporary art! Cheers!'
