

EAST-SLIDE PROJECTS!

EASTSIDE Projects have had a direct pipe-line installed running mineral water from the Malvern Hills for a swimming pool and small water slide complex. Soft skinned directors were said to be pleased with the addition, which complements the gallery's sauna and private yacht. Maggie Street boss man John Butler reacted quickly to quash rumours that BCU money was going down the drain, but couldn't say anymore as he had to dash off to pick up some limited edition BCU Bermuda shorts from the printers.
