

MISS ARTISTS!

The Crown: 'Dangerous'

The recent switch to Friday night openings at Eastside venues is thought to be a direct result of the credit crunch. Eastside bigwigs are thought to be working in partnership with the landlords of Digbeth pubs, with ARTISTS likely to stay out longer and later on a Friday night. BAZ are concerned that this may lower the general rate of productivity across the city with many ARTISTS unable to make it to their studios on a Saturday.

APATHY AND ALCOHOLISM

BAZ say 'a happy ART scene is a hard working ART scene' and fear the late night openings may create an atmosphere of apathy and alcoholism. On the other hand, BAZ believe it is important to keep pubs busy in this time of economic hardship. BAZ took to the streets to conduct a survey on the matter. An astonishing 73 percent said they were in favour of late night openings. BAZ say be aware.

ARTISTS HAPPY HOUR

The vibrant Glasgow ART scene was obliterated last year after pubs started offering ARTIST happy hour promotions. The message from BAZ is - BIRMINGHAM: BE AWARE. BE CAREFUL. BE VIGILANT.
