## ***The One And Only Relaxation CD For Artists!***

Think BIG! Your dreams will come TRUE! Aim for the skies and you will SUCCEED! Why? Because you are not a FAILURE! You are a SUCCESS!

'It's just that you're the only one who knows it. You are successful in ways that other people aren't. Success isn't only measured through shows, exhibitions, residences and peer admiration. Success is measured inside you. If you feel successful, you are a success! And you are a success! I can feel it now just how successful you are. Wow, you are successful! Just because people don't know you on your local art scene, it doesn't mean that you are not important. You are important! You are a VIP. A bona fide art VIP! You are the most important person in the Birmingham Art World and you know that. You are better than everyone else put together! Your work is amazing, truly amazing! One day you will be recognised for the brilliant talent that you truly are. Make no mistake about it, you are brilliant! A genuinely brilliant artist. Yes, that's right, you are a brilliant artist. If people ignore you or don't take any notice of you, it's because they don't understand how great you are and how great your work is. They are the losers here. You are a winner! You are a real winner! You are a thoroughbred artist of the highest degree. A champion. In fact, you are ART!'
